Conventional Sounder Beacon

C-9401

Description

Addressable all-purpose sounder beacon for fire, security, schools and industrial area. The C-9401 is designed to meet the requirement of EN54

The unit is utililised a red Plexiglas cover and a number of strong signal red LED, long-life and low consumption. Two part construction with base mounted termination allows easy installation and avoiding the wiring and connection problem associated with traditional sounder.

Features and Benefits

- Combined flashing high intensity LED beacon and sounder
- Wall mount
- Two part plug-in construction, no locking screw required
- Easy installation and connection.

Technical Specifications

- Approval: Pending
- Sound Level Output: 84dBA at 3 meters
- Beacon Frequency: 20~180 times
- Operating Current:
  PSU: Standby-10mA; Alarm-160mA
- Operating Voltage:
  PSU: 24VDC (20VDC~28VDC)
- Operating temp: -10°C to +50°C
- Relative humidity: 95%
- Application: Indoor use
- Protection rating: IP 30
- Material and colour: ABS,ivory white, red plexiglass
- Wiring; 1 pair 24vdc
- Dimensions: 144x90x57mm
